* **Editing (A Little Known Fact):** In order to provide my clients with the overall best product that I can offer, I spend an average of 4.5 hours for every 1 hour of photography doing digital darkroom work. Editing is not just fine-tuning the images to include only the best ones, but adjusting brightness, contrast, dodging, burning, cutting, pasting and color correction. We also include some special effects, and much more.

Wedding Albums

Several unique albums are available. All made by Professional Albums. You can choose to include them as part of your initial package or you can purchase them later, after your wedding.

Montage Art Books by Professional Albums

Montage Art books is the most contemporary wedding albums available. Pages appear as image collages.
